MAÏWEN DAVALO

FINANCIAL ANALYST — IA & AUTOMATION— ASSET MANAGEMENT

Paris, France | +33 (0)7 86 13 79 06 | maiwen.davalo@gmail.com | linkedin.com/in/maïwen-davalo

PROFILE

IÉSEG graduate with a Master's degree in Finance and Supply Chain Management, combining hands-on experience in financial analysis, hospitality performance and process automation. At Accor, analyzed business plans, feasibility scenarios, P&Ls and KPIs across 100+ hotel entities in Europe, while contributing to more reliable and efficient reporting processes. Daily user of AI tools including Claude, ChatGPT and Gemini to accelerate research, document review, data analysis and modeling, while critically validating every output and underlying figure. Rigorous, curious and comfortable working across international and cross-functional teams, eager to contribute to Braxton's AI Task Force by identifying practical real estate use cases, supporting tool deployment and developing internal automations for the Investment, Fund Management and Finance teams. Available from January 2027 for a six-month internship.

PROFESSIONAL EXPERIENCE

Financial Analyst — Accor — Finance Operations Europe, Luxury & Lifestyle **Jan 2026 – Jul 2026**

London, United Kingdom

- **Investment analysis & portfolio monitoring —** Analyzed business plans, feasibility scenarios and P&Ls for hotel asset projects across 100+ entities (Sofitel, MGallery, Emblems) in several European countries, supporting investment decisions and monitoring portfolio performance.
- **Financial underwriting —** Reviewed P&Ls, contractual fees, cappings and billing variances, contributing to the identification and recovery of €115K.
- **Stakeholder coordination —** Partnered with Finance teams, hotel General Managers and franchise partners across several countries on a reporting-reliability project, improving selected cycles from D+3 to D+2 — close coordination with third-party hotel operators.

Junior Financial Controller — Domaine du Liziec — MGallery Accor **Jun 2025 – Aug 2025**

Vannes, France

- **Pricing project —** Designed and deployed an automated room-pricing tool, working directly with the hotel's Finance and General Management teams.
- **Operational performance —** Investigated inventory and operating-cost variances across F&B, rooms and spa, then coordinated corrective actions with operational teams; built automated Excel dashboards to track performance by department.

Operations and Finance Analyst — Symrise Pet Food **Apr 2024 – Aug 2024**

Elven, France

- **Budgeting and planning —** Supported budget preparation and a five-year sales growth plan through financial analysis and KPI tracking.
- **Cross-functional data —** Cross-checked financial, production and supply chain data in Excel and SAP to improve reporting reliability.

EDUCATION

Master in Finance and Supply Chain Management — IÉSEG School of Management **2021 – 2026**

Paris, France

Academic Exchange — Università Cattolica del Sacro Cuore **2023**

Milan, Italy
